CONKLING CANVASSING.

Positive Announcements of His Prospective Defeat

With Just as Positive Announcements of His Probable Victory.

In Fact the Result is Something No Fellow Can Find Out.

CONKLING WAITING FOR NEWS

NEW YORK, May 24—The Tribune this morning, in an article on Albany politics, shows that Conkling's supporters are confident of victory at Albany. The Tribune thinks Conkling and Platt should continue to canvass quietly for a compromise. Each party claims the legislature on joint ballot. Conkling claims that the Democrats will vote for Conkling and Platt. Democrats say they have been promised that Conkling and Platt will be defeated. Democrats say they will not compromise, as the democrats help them from United States senator. What makes Conkling peculiarly restless is the positive assertion of Senator Aitken in the senate that the bargain between the two men who were to have a majority of Republican votes was that Conkling and Platt were to be elected senators.

CONKLING'S CLAIM

Albany, May 24—The Conkling managers claim that Conkling will receive 76 votes on the first ballot, and Platt 75. Democrats say

R. W. STEELE,
[illegible]
ABE ROBERTS,
Superintendent of Motive Power.

Should Stubbs went to Madison yesterday on official business?

The Silver Cliff correspondent thinks will join Horace Greeley shortly in Yankton.

Another name mentioned in connection with the Democratic nomination for governor is that of [illegible].

The Rock and Ridge company will work for their regular purchase [illegible] this evening.

Hon. Jos. B. Orman, of Pueblo, was a guest at the Colorado Springs hotel yesterday.

Efforts are being made to secure the Opera House for an evangelical meeting next Sunday evening.

There was quite a blaze [illegible] on the Glen yesterday afternoon and only a little sprinkle in town.

There will be a meeting [illegible] of the Rock Ridge at Denver, between the Queen City and the Omaha club.

The hotel at Manitou are already accommodating quite a number of guests, but the season [illegible] not commenced.

Mr. A. D. Chase returned to Pueblo yesterday where he contemplates going into the wholesale and retail hardware business.

Mr. F. O. Valle the general manager of the Colorado telephone company, is in the city on business pertaining to the company.

Charlotte Thompson and her company will play a three nights' engagement in the opera house here, commencing on Thursday, June 26.

Mr. J. P. Ketchum, of the Madison (Wis.) Democrat, is in the city. Mr. Ketchum will probably remain here during the greater part of the summer.

Horses and saddle ponies are exceedingly scarce in the city, owing to the constant demand for them by those who are about to start for the mountains.

Mr. Paul R. Brooks, a prominent citizen of Lawrence, Kansas, is in the city on a visit to his brother, who is connected with the auditor's office of the Denver and Rio Grande.

Two livery stable employes were arraigned before Justice Bentley for fighting and fined $7.40 each. Considering the fact that neither of the parties got any satisfaction the fine was pretty heavy.

Canty's confinement seems to be telling on him, and he looks much more careworn and worried than when he received his sentence. He seems confident that the supreme court will grant him a new trial.

A clock was won by the Stephens hose company No. 6, of Augusta, Ga., the other night, and when it was set going on the platform it struck six, although not wound up. The chief of the company was noisily manifested. We wonder what that clock would strike when No. 1 and No. 2 try conclusions next 4th of July.

No definite arrangements have as yet been made for a game of base ball between the Queen City's of Denver and the D. & R. G. club. Would it not be advisable for our club to defer making any arrangements for a game with the Queen City's or any other club until they acquire more proficiency in the diamond. Should they attempt to play a match game without more practice it would be a sure defeat for them.

We understand that the telephone company will in a few days remove their office from the Western Union telegraph office on Huerfano street to the second story of the Washburn block, over the First National bank. The office will be placed under independent management, and will be kept open from 7 a.m. until 10 p.m. An operator will sleep in the office during the night, so that in case of emergency the wires can be used. It is the intention of the company to extend their circuit by placing instruments in private residences at a reduced rate. This will make the circuit more valuable to the merchants and business men, as it will bring them in more direct communication with many of their customers. Just what changes will be made in the management of the company's affairs here is not fully known.
